INTERIO STATION is one of the most affordable and budget level and Luxury Interior Design Company in India from 2012 and Trying to Enter Global Markets soon, we are specialized in interior design and branding for budget and luxury hospitality and commercial interiors. We have successfully completed Several projects in Major Cities of India for major hospitality corporations as well as private owners.

INTERIO STATION was established with the vision of creating memories by evoking a sense of place on a journey through surprise, discovery and desires of both pocket friendly clients as well luxury Clients.

Each one of our projects is defined by its unique identity and it delivers a special experience through the seamless fusion of design and operation.

INTERIO STATION is a collection of dynamic, knowledgeable and creative Designers, Engineers and Managers and our commitment and involvement are consistently strong through every phase from design to execution process.

Our goal is to meet the specific needs of each client with creative and appropriate design solutions and it is our belief that the integration of all the complementary design disciplines results into exceptional memories.

We strongly emphasize the creative process and project management. Our work is powered by our commitment and dedication to our clients.

Many Doesn't reveal the background production and management process to maintain the work, where as we in interio station believe that all should be aware of backend and front end.

We have tied up with multiple factories in the different cities to cut down on the operational costs like transportation and production cost specifically by which we at interio station will be able to give the best pocket friendly quotation.

We will have our project managers all the time at the factory location until the production is completed, you need not to worry on third party production as it will be monitored by interio station employees.

While we adapt the open operation of business it helped us in managing quality of the material and hardware as same.
